2. Enjoy

you won't always offer our customers more

Team Manager - Customer Interaction & Portal Products Excellent Salary + Benefits - Based Bristol

We always aim to provide our customers with the latest innovations. But one thing we won't offer them is added complications. Because if our products and services are easy to use, they're more likely to provide a positive experience. So if you understand how to make customer's lives easier, you could soon find yourself leading the development of our latest multimedia offerings.

Overseeing the User Interaction team, you'll ensure customers can access products and services easily, and that the experience they have is simple, straightforward, familiar and fun. You'll also look after our Portals Products team, who develop and manage products that we'll soon be offering our customers.

Managing and setting the direction for both teams, you'll be responsible for promoting innovation in a cross-functional environment. Recently formed, there is a lot of enthusiasm and creative thinking across the teams. But to

ensure their success, you'll take the lead in making sure ideas remain relevant to our customers needs.

Ideally from a product marketing background, with plenty of customer experience, you'll be a strong people manager able to motivate 22 team members to achieve business objectives. Along with a good understanding of the end-to-end customer experience, you'll have the vision, initiative and creativity to take this business area onto the next stage of its development.

To apply, please email your CV, quoting reference 1719, with current salary details to andrewbailey@abrs.com abrs ltd, 1st floor, 13 Reading Road, Pangbourne, Reading RG8 7LR.
